Applicable Products:
- UnitedHealthcare
- MAHP (MDIPA and Optimum Choice Inc.)
- Neighborhood Health Partnership

Related Policies:
- Breast Imaging for Screening and Diagnosing Cancer
- Cardiovascular Disease Risk Tests
- Computed Tomographic Colonography
- Cytological Examination of Breast Fluids for Cancer Screening
- Fecal DNA Testing
- Genetic Testing for Hereditary Breast Ovarian Cancer Syndrome (HBOC)
- Preventive Medicine and Screening Policy
- Vaccines (Drug Policy)

Related Coverage Determination Guidelines: None

INSTRUCTIONS FOR USE

This Coverage Determination Guideline provides assistance in interpreting certain standard UnitedHealthcare benefit plans. When deciding coverage, the enrollee specific document must be referenced. The terms of an enrollee’s document (e.g., Certificates of Coverage (COCs), Schedules of Benefits (SOBs), or Summary Plan Descriptions (SPDs), and Medicaid State Contracts) may differ greatly from the standard benefit plans upon which this guideline is based. In the event of a conflict, the enrollee’s specific benefit document supersedes these guidelines. All reviewers must first identify enrollee eligibility, any federal or state regulatory requirements and the plan benefit coverage prior to use of this guideline. Other coverage determination guidelines and medical policies may apply. UnitedHealthcare reserves the right, in its sole discretion, to modify its coverage determination guidelines and medical policies as necessary. This Coverage Determination Guideline does not constitute medical advice.

UnitedHealthcare may also use tools developed by third parties, such as the MCG™ Care Guidelines, to assist us in administering health benefits. The MCG™ Care Guidelines are intended to be used in connection with the independent professional medical judgment of a qualified health care provider and do not constitute the practice of medicine or medical advice.

COVERAGE RATIONALE

Plan Document Language
Before using this guideline, please check enrollee’s specific plan document and any federal or state mandates, if applicable.
Throughout this document the following acronyms are used:

- PPACA: Patient Protection and Affordable Care Act of 2010.
- ACIP: Advisory Committee on Immunization Practices
- HHS: Health and Human Services
- HRSA: Health Resources and Services Administration

Essential Health Benefits for Individual and Small Group:
For plan years beginning on or after January 1, 2014, the Affordable Care Act of 2010 (ACA) requires fully insured non-grandfathered individual and small group plans (inside and outside of Exchanges) to provide coverage for ten categories of Essential Health Benefits (“EHBs”). Large group plans (both self-funded and fully insured), and small group ASO plans, are not subject to the requirement to offer coverage for EHBs. However, if such plans choose to provide coverage for benefits which are deemed EHBs (such as maternity benefits), the ACA requires all dollar limits on those benefits to be removed on all Grandfathered and Non-Grandfathered plans. The determination of which benefits constitute EHBs is made on a state by state basis. As such, when using this guideline, it is important to refer to the enrollee’s specific plan document to determine benefit coverage.

Indications for Coverage:

Introduction:
UnitedHealthcare covers certain medical services under the Preventive Care Services benefit. Effective for plan years on or after September 23, 2010, the federal Patient Protection and Affordable Care Act (PPACA) requires non-grandfathered health plans to cover certain “recommended preventive services” identified by PPACA under the Preventive Care Services benefit, without cost sharing when provided by Network physicians.

For Plan Years that Begin On or After September 23, 2010:
For non-grandfathered health plans, UnitedHealthcare will cover the recommended preventive services under the Preventive Care Services benefit as mandated by PPACA, with no cost sharing when provided by a Network provider. These services are described in the United States Preventive Services Task Force A and B recommendations, the Advisory Committee on Immunization Practices (ACIP) of the CDC, and Health Resources and Services Administration (HRSA) Guidelines including the American Academy of Pediatrics Bright Futures periodicity guidelines.

For Plan Years that Begin On or After August 1, 2012:
For non-grandfathered plans, UnitedHealthcare will cover for women the additional preventive care and screenings as required by the HHS Health Plan Coverage Guidelines for Women’s Preventive Services for plan years that begin on or after August 1, 2012.

In addition to these mandated services, under the Preventive Care Services benefit, UnitedHealthcare also covers screening using CT colonography; prostate specific antigen (PSA); and screening mammography for adult women without age limits.

Grandfathering for Preventive Care Services:
Grandfathered plans, as that term is defined under PPACA, are not required by law to provide coverage without cost sharing for preventive services; although a grandfathered plan may amend its plan document to voluntarily comply with the preventive benefit requirements under PPACA.

Grandfathered health plans will continue the benefits for preventive care that existed in the plan prior to September 23, 2010, without conforming to the federal mandate under PPACA, unless amended to comply with the federal requirements. Except where there are State mandates, a grandfathered plan might include member cost sharing or exclude some of the preventive care services identified under PPACA. Please refer to the enrollee specific plan document for details.

Non-grandfathered plans are required to cover the preventive care services as defined in the PPACA at no cost sharing. Please refer to the enrollee specific plan document for details.
Cost Sharing for Non-Grandfathered Health Plans:

**Network** Preventive Care Services that are identified by PPACA are required to be covered under the Preventive Care Services benefit with no member cost sharing (ie. covered at 100% of Eligible Expenses without deductible, coinsurance or copayment). **NOTE:** For Network providers, UnitedHealthcare has made a decision to also cover the “Additional Preventive Care Services” identified below with no member cost sharing.

**Non-Network** preventive care services are not part of the PPACA requirements. Many plans do not cover non-network preventive care services. If a plan covers non-network preventive care services, the benefit for non-network is allowed to have member cost sharing. Please refer to the enrollee specific plan document for non-network information.

**Summary of Preventive Care Services Benefit:**
The following is a high-level summary of the services covered under the Preventive Care Services benefit (broken down by age/gender groups):

**All members:**
Age- and gender-appropriate Preventive Medicine visits (Wellness Visits); all routine immunizations recommended by the Advisory Committee on Immunization Practices of the CDC.

**All Members at an appropriate age and/or risk status:** Counseling and/or screening for: colorectal cancer; elevated cholesterol and lipids; certain sexually transmitted diseases; HIV; depression; high blood pressure; diabetes. Screening and counseling for alcohol abuse in a primary care setting; tobacco use; obesity; diet and nutrition.

**Women’s Health:**
1. **Plan Years that Begin on or after September 23, 2010:** Screening mammography; cervical cancer screening including Pap smears; genetic counseling and evaluation for the BRCA breast cancer gene test; BRCA lab screening* (effective October 1, 2013); counseling for chemoprevention for women at high risk for breast cancer; screening for gonorrhea, chlamydia, syphilis in defined high risk groups; osteoporosis screening. Screening pregnant women for anemia iron deficiency, bacteriuria; hepatitis B virus, Rh incompatibility; and instructions to promote and aid with breast feeding.
   
   *Prior authorization requirements apply to BRCA lab screening.

2. **Plan Years that Begin on or after August 1, 2012:** Preventive visits to include preconception and prenatal services; FDA-approved contraception methods and contraceptive counseling; human papillomavirus (HPV) DNA testing for women 30 years and older; breastfeeding support and counseling, and costs of breastfeeding equipment; domestic violence screening and counseling; annual human immunodeficiency virus (HIV) screening and counseling; annual sexually-transmitted infection counseling; and screening for gestational diabetes for all pregnant women that have no prior history of diabetes.

**Men’s Health:** Screening for prostate cancer for men age 40 and older; screening for abdominal aortic aneurysm in men 65 – 75 years old (USPSTF recommends this for males 65-75 years old who have smoked).

**Pediatrics:** Screening newborns for hearing problems, thyroid disease, phenylketonuria, sickle cell anemia, and standard metabolic screening panel for inherited enzyme deficiency diseases. For children: Counseling for fluoride for prevention of dental cavities; screening for major depressive disorders; vision; lead; tuberculosis; developmental/autism; counseling for obesity.

**Additional Preventive Care Services:**
The following preventive care services are not currently required by PPACA. However, these services are covered under UnitedHealthcare’s Preventive Care Services benefit.

1. Mammography (film and digital) screening for all adult women
2. Computed Tomographic Colonography (Virtual Colonoscopy) for screening for colon cancer
3. Osteoporosis Screening for all women (regardless of risk)
4. Prostate Cancer Screening for all men age 40+
5. Wellness / Physical Examinations for Adults (Age- and gender-appropriate)*

* See the Expanded Women’s Preventive Health coding table below regarding specific services that are covered as well woman visits under PPACA, for plan years that begin on or after August 1, 2012.

**Preventive vs. Diagnostic Services:**
Certain services can be done for preventive or diagnostic reasons. When a service is performed for the purpose of preventive screening and is appropriately reported, it will be adjudicated under the Preventive Care Services benefit.

Preventive services are those performed on a person who:
1. has not had the preventive screening done before and does not have symptoms or other abnormal studies suggesting abnormalities; or
2. has had screening done within the recommended interval with the findings considered normal; or
3. has had diagnostic services results that were normal after which the physician recommendation would be for future preventive screening studies using the preventive services intervals.
4. has a preventive service done that results in a therapeutic service done at the same encounter and as an integral part of the preventive service (e.g. polyp removal during a preventive colonoscopy), the therapeutic service would still be considered a preventive service.

Examples include, but are not limited to:
- A woman had an abnormal finding on a preventive screening mammography and the follow up study was found to be normal, and the patient was returned to normal mammography screening protocol, then future mammography would be considered preventive.
- If a polyp is encountered during preventive screening colonoscopy, the colonoscopy, removal of the polyp, and associated facility, lab and anesthesia fees done at the same encounter are covered under the Preventive Care Services benefit.

When a service is done for diagnostic purposes it will be adjudicated under the applicable non-preventive medical benefit.

Diagnostic services are done on a person who:
1. had abnormalities found on previous preventive or diagnostic studies that require further diagnostic studies; or
2. had abnormalities found on previous preventive or diagnostic studies that would recommend a repeat of the same studies within shortened time intervals from the recommended preventive screening time intervals; or
3. had a symptom(s) that required further diagnosis.

Examples include, but are not limited to:
- A patient had a polyp found and removed at a prior preventive screening colonoscopy. All future colonoscopies are considered diagnostic because the time intervals between future colonoscopies would be shortened.
- A patient had an elevated cholesterol on prior preventive screening. Once the diagnosis has been made, further testing is considered diagnostic rather than preventive. This is true whether or not the patient is receiving pharmacotherapy.
- If a Preventive service results in a therapeutic service at a later point in time, the Preventive Service would be adjudicated under the Preventive Care Services benefit and the therapeutic service would be adjudicated under the applicable non-preventive medical benefit.

**Related Services:**
Services that are directly related to the performance of a preventive service are adjudicated under the Preventive Care Services benefit. Examples include:
1. All services for a preventive colonoscopy (e.g. associated facility, anesthesia, pathologist, and physician fees). The preventive benefit does not include a pre- or post-operative examination.
2. Women’s outpatient sterilization procedures (e.g. associated implantable devices, facility fee, as well as anesthesia, pathology, and physician fees) are considered to be related services and covered under the preventive benefit. Note the following:
a. The preventive benefit does not include a pre- or post-operative examination.
b. If a woman is admitted to an inpatient facility for another reason, and has a sterilization performed during that admission, the sterilization surgical fees (surgical fee, device fee, anesthesia, pathologist and physician fees), are covered under the preventive benefit. However, the facility fees are not covered under preventive benefits since the sterilization is incidental to and is not the primary reason for the admission.
3. Blood drawing (venipuncture or finger or heel stick) is considered as payable under the preventive benefit if billed for a preventive lab service that requires a blood draw.

Note, however, that benefit adjudication is contingent upon accurate claims submission by the provider, including diagnosis, procedure, age and gender.

Covered Breastfeeding Equipment:

Personal-use electric breast pump:
- The purchase of a personal-use electric breast pump (HCPCS code E0603).
  - This benefit is limited to one pump per birth. In the case of a birth resulting in multiple infants, only one breast pump is covered.
  - A breast pump purchase includes the necessary supplies for the pump to operate.
- Replacement breast pump supplies necessary for the personal-use electric breast pump to operate.
  This includes: standard power adaptor, tubing adaptors, tubing, locking rings, bottles specific to breast pump operation, caps for bottles that are specific to the breast pump, valves, filters, and breast shield and/or splash protector for use with the breast pump.

Note: See the Coverage Limitations and Exclusions section for non-covered items.

ADDITIONAL INFORMATION:
- A new immunization that is pending ACIP recommendations, but is a combination of previously approved individual components, is eligible for adjudication under the preventive care benefit.
- Refer to the Preventive Medicine and Screening Reimbursement Policy for situations which may affect reimbursement of preventive care services Preventive Medicine and Screening Policy.
- The list of recommended preventive services covered will be updated as new recommendations and guidelines are issued, or as existing ones are revised or removed by the USPSTF, ACIP and the HRSA. Updates will occur no less frequently than required by PPACA.

Coverage Limitations and Exclusions:
1. Services not covered under the preventive care benefit may be covered under another portion of the medical benefit plan.
2. The cost of drugs, medications, vitamins or supplements, or over the counter contraceptive barrier methods that are recommended or prescribed for preventive measures are not covered as a preventive care benefit. Examples include, but are not limited to:
   a. Aspirin for any indication, including but not limited to, aspirin for prevention of cardiovascular disease.
   b. Chemoprevention for any indication, including but not limited to, chemoprevention for breast cancer.
   c. Supplements, including but not limited to: oral fluoride supplementation, and folic acid supplementation.
   d. Tobacco cessation products or medications.
   e. Male or Female condoms.

Our template Outpatient Prescription Drug Rider for fully insured business excludes coverage for over-the-counter (OTC) drugs that do not require a prescription order or refill by federal or state law before being dispensed, unless we designate an OTC drug as eligible for coverage as a prescription drug product and it is obtained with a prescription order or refill from a physician.
Refer to the Outpatient Prescription Drug Rider, or SPD for self funded plans, for specific prescription drug product coverage and exclusion terms, and myuhc.com for information regarding coverage for contraceptive drugs.

3. An immunization is not covered if it does not meet company Vaccine Policy requirements for FDA labeling (including age and/or gender limitations) and if it does not have definitive ACIP recommendations published in the CDC’s Morbidity and Mortality Weekly Report (MMWR).

4. Examinations, screenings, testing, or immunizations are not covered when:
   a. required solely for the purposes of career, education, sports or camp, travel (including travel immunizations), employment, insurance, marriage or adoption, or
   b. related to judicial or administrative proceedings or orders, or
   c. conducted for purposes of medical research, or
   d. required to obtain or maintain a license of any type.

5. Services that are investigational, experimental, unproven or not medically necessary are not covered. Please see applicable Medical Policies for details.

6. Breastfeeding equipment and supplies not listed in the Indications for Coverage section above. This includes, but is not limited to:
   o Manual breast pumps and all related equipment and supplies.
   o Hospital-grade breast pumps and all related equipment and supplies.
   o Equipment and supplies not listed in the Covered Breastfeeding Equipment section above, including but not limited to:
     ▪ Batteries, battery-powered adaptors, and battery packs.
     ▪ Electrical power adapters for travel.
     ▪ Bottles which are not specific to breast pump operation. This includes the associated bottle nipples, caps and lids.
     ▪ Travel bags, and other similar travel or carrying accessories.
     ▪ Breast pump cleaning supplies including soap, sprays, wipes, steam cleaning bags and other similar products.
     ▪ Baby weight scales.
     ▪ Garments or other products that allow hands-free pump operation.
     ▪ Breast milk storage bags, ice-packs, labels, labeling lids, and other similar products.
     ▪ Nursing bras, bra pads, breast shells, nipple shields, and other similar products.
     ▪ Creams, ointments, and other products that relieve breasts or nipples.

   *Note: See the Indications for Coverage section above for covered breastfeeding equipment.*

**TRAVEL IMMUNIZATIONS ADDITIONAL INFORMATION:**
Immunizations that are specific to travel (e.g. typhoid, yellow fever, cholera, plague, and Japanese encephalitis virus) are not required by PPACA and are excluded from coverage. However, travel immunizations are available as a buy-up coverage option on certain plans. Please see enrollee specific plan document for details.

**For ASO plans with SPD language other than fully-insured Generic COC language**
Certain ASO plans may have a different list of preventive care benefits. Please refer to the enrollee’s plan specific SPD for coverage.
DEFINITIONS

**Modifier 33:** Preventive Service; When the primary purpose of the service is the delivery of an evidence based service in accordance with a US Preventive Services Task Force A or B rating in effect and other preventive services identified in preventive services mandates (legislative or regulatory), the service may be identified by adding 33 to the procedure. For separately reported services specifically identified as preventive, the modifier should not be used.

*Please see coding section below for more information about Modifier 33.*

APPLICABLE CODES

The Current Procedural Terminology (CPT®) codes and HCPCS codes listed in this guideline are for reference purposes only. Listing of a service code in this guideline does not imply that the service described by this code is a covered or non-covered health service. Coverage is determined by the enrollee specific benefit document and applicable laws that may require coverage for a specific service. The inclusion of a code does not imply any right to reimbursement or guarantee claims payment. Other policies and coverage determination guidelines may apply.

*CPT® is a registered trademark of the American Medical Association.*

**Modifier 33:**
UnitedHealthcare considers the procedures and diagnostic codes and Claims Edit Criteria listed in the table below in determining whether preventive care benefits apply. While modifier 33 may be reported, it is not used in making preventive care benefit determinations.

### Preventive Care Services Codes:

| Limited to specific procedure codes? | YES | NO |

**ICD-10 Codes**

In preparation for the transition from ICD-9 to ICD-10 medical coding on **October 1, 2014***, a sample listing of the ICD-10 CM codes associated with this policy has been provided below for your reference. This list of codes may not be all inclusive and will be updated to reflect any applicable revisions to the ICD-10 code set and/or clinical guidelines outlined in this policy.

*The effective date for ICD-10 code set implementation is subject to change.*

---

### Preventive Care Services

*Also see the Expanded Women’s Preventive Health table below.*

*See the History Section for coding effective dates.*

**Certain codes may not be payable in all circumstances due to other policies or guidelines.**

#### Abdominal Aortic Aneurysm Screening

**USPSTF Rating (Feb. 2005): B**

One-time screening for abdominal aortic aneurysm (AAA) by ultrasonography in men aged 65 to 75 who have ever smoked.

**Code(s):**

- **Note:** ICD-10 codes are effective 10/1/14.
- **Procedure Code(s):**
  - 76700, 76705, 76770, 76775, G0389
- **Diagnosis Code(s):**
  - **ICD-9:** V15.82
  - **ICD-10:** Z87.891, F17.210, F17.211, F17.213, F17.218, F17.219

**Claims Edit Criteria:**

- Male
- Age 65 through 75
- One of the Diagnosis Codes listed in this row.
## Preventive Care Services

*Also see the Expanded Women’s Preventive Health table below. See the History Section for coding effective dates.*

| **Anemia, Iron Deficiency Anemia Screening**  
USPSTF Rating (May 2006): B  
Routine screening for iron deficiency anemia in asymptomatic pregnant women. | Procedure Code(s):  
- 85013, 85014, 85018  
- 36415, 36416  
Diagnosis Code(s):  
- Pregnancy Diagnosis Code (see list at end of section). | Payable with a Pregnancy Diagnosis Code (see list at end of section)  
Criteria for 36415 and 36416: Payable when billed with one of the listed anemia screening procedure codes AND with a Pregnancy Diagnosis Code (see list at end of section) |
| **Bacteriuria Screening**  
USPSTF Rating (July 2008): A  
Screening for asymptomatic bacteriuria with urine culture for pregnant women at 12 to 16 weeks' gestation or at the first prenatal visit, if later. | Procedure Code(s):  
- 81007  
Diagnosis Code(s):  
- Pregnancy Diagnosis Code (see list at end of section). | Payable with a Pregnancy Diagnosis Code (see list at end of section) |
| **Chlamydia Infection Screening**  
USPSTF Rating (June 2007): A  
Screening for chlamydial infection for all sexually active non-pregnant young women aged 24 and younger and for older non-pregnant women who are at increased risk.  
USPSTF Rating (June 2007): B  
Screening for chlamydial infection for all pregnant women aged 24 and younger and for older pregnant women who are at increased risk. | Procedure Code(s):  
- 86631, 86632, 87110, 87270, 87320, 87490, 87491, 87492, 87801, 87810  
- 36415, 36416  
Diagnosis Code(s):  
- Pregnancy Diagnosis Code (see list at end of section), OR  
  - *ICD-9*: V70.0, V73.88, V73.98, V74.5, V75.9  
  - *ICD-10*: Z00.00, Z11.3, Z11.8, Z11.9, Z20.2  
Criteria for 36415 and 36416: Payable when billed with both of the following:  
1. With 86631 or 86632  
2. With one of the Diagnosis Codes listed in this row OR with a Pregnancy Diagnosis Code (see list at end of section) | All women.  
Payable with Pregnancy Diagnosis Code (see list at end of section)  
**OR**  
With one of the Diagnosis Codes listed in this row  
Criteria for 36415 and 36416: Payable when billed with both of the following:  
1. With 86631 or 86632  
2. With one of the Diagnosis Codes listed in this row OR with a Pregnancy Diagnosis Code (see list at end of section) |
| **Gonorrhea Screening**  
USPSTF Rating (May 2005): B  
Screen all sexually active women, including those who are pregnant, for gonorrhea infection. | Procedure Code(s):  
- 87590, 87591, 87592, 87801, 87850  
Diagnosis Code(s):  
- *ICD-10*: Z00.00, Z11.3, Z11.8, Z11.9, Z20.2  
- Female.  
Payable with either a Pregnancy Diagnosis Code (see list at end of section) or one of the Diagnosis Codes | Female.  
Payable with either a Pregnancy Diagnosis Code (see list at end of section) or one of the Diagnosis Codes |

*Note: ICD-10 codes are effective 10/1/14.*

### Service: Rubella Screening By History of Vaccination or by Serology

**USPSTF Rating (1996):** B

Screening for rubella susceptibility by history of vaccination or by serology is recommended for all women of childbearing age at their first clinical encounter.

**Procedure Code(s):**
- History of Vaccination: No codes (included in exam)
- Serology:
  - 86762
  - 36415, 36416

**Diagnosis Code(s):**
- ICD-9: V70.0 or V73.3
- ICD-10: Z00.00, Z11.59, Z20.4

See Expanded Women’s Preventive Health table below for Gestational Diabetes Screening.

### Service: Screening Mammography

**USPSTF Rating (2002 Recommendation):** B

The USPSTF recommends screening mammography, with or without history of screening, for women at age 50 and older.

**Procedure Code(s):**
- G0202, 77052, 77057
- Revenue code: 0403

**Diagnosis Code(s):**
- n/a

- Gender - Female.
- Payable for all adult women regardless of diagnosis code or age.

## Preventive Care Services

### Cervical Cancer Screening, Pap Smear

**USPSTF Rating (March 2012): A**

Screening for cervical cancer in women ages 21 to 65 years with cytology (Pap smear) every 3 years or, for women ages 30 to 65 years who want to lengthen the screening interval, screening with a combination of cytology and human papillomavirus (HPV) testing every 5 years.

### Cholesterol Screening (Lipid Disorders Screening)

**Screening Men (June 2008):**
- Screening men aged 35 and older for lipid disorders.
  - USPSTF Rating: A
- Screening men aged 20 to 35 for lipid disorders if they are at increased risk for coronary heart disease.
  - USPSTF Rating: B

**Screening Women at Increased Risk (June 2008):**
- Screening women aged 45 and older for lipid disorders if they

Newborn Screenings

All newborns

USPSTF Rating (July 2008): B
Hearing Screening - screening for hearing loss in all newborn infants

USPSTF Rating (March 2008): A
Hypothyroidism Screening - screening for congenital hypothyroidism in newborns

USPSTF Rating (March 2008): A
Phenylketonuria Screening - screening for phenylketonuria (PKU) in newborns

USPSTF Rating (Sept. 2007): A
Sickle Cell Screening - screening for sickle cell disease in newborns

Procedure Code(s):

Hearing Screening:
• V5008, 92551, 92558, 92585, 92586, 92587, 92588

Hypothyroidism Screening:
• 84437, 84443, 36415, 36416

Phenylketonuria Screening:
• 53620, 84030, 36415, 36416

Sickle Cell Screening:
• 53850, 83020, 83021, 83030, 83033, 83051, 36415, 36416

Diagnosis Code(s):
• n/a

Claims Edit Criteria:

• Age 0 – 90 days regardless of diagnosis code.

Criteria for 36415 and 36416: Age 0-90 days, payable when billed with one of the listed Hypothyroidism Screening, Phenylketonuria Screening, or Sickle Cell Screening procedure codes.
## Preventive Care Services

## Screening for High Blood Pressure
**USPSTF Rating (Dec. 2007): A**
The U.S. Preventive Services Task Force (USPSTF) recommends screening for high blood pressure in adults aged 18 and older.

- **Procedure Code(s):**
  - Evaluation and Management (Office Visits):
    - 99201, 99202, 99203, 99204, 99205, 99211, 99212, 99213, 99214, 99215, 99385, 99386, 99387, 99395, 99396, 99397
  - Diagnosis Code(s):
    - **ICD-9:** V16.3, V16.41
    - **ICD-10:** Z80.3, Z80.41, Z15.01, Z15.02

- **Claims Edit Criteria:**
  - Payable as preventive when billed with one of the Diagnosis Codes listed in this row in the primary position.

## Chemoprevention of Breast Cancer (Counseling)
**USPSTF Rating (July 2002): B**
The USPSTF recommends that clinicians discuss chemoprevention with women at high risk for breast cancer and at low risk for adverse effects of chemoprevention. Clinicians should inform patients of the potential benefits and harms of chemoprevention.

- **Procedure Code(s):**
  - Evaluation and Management (Office Visits):
    - 99201, 99202, 99203, 99204, 99205, 99211, 99212, 99213, 99214, 99215, 99385, 99386, 99387, 99395, 99396, 99397

- **Claims Edit Criteria:**
  - Included in primary care or OB/GYN office visits.

## Primary Care Interventions to Promote Breastfeeding
**USPSTF Rating (Oct. 2008): B**
The USPSTF recommends interventions during pregnancy and after birth to promote and support breastfeeding.

- **Claims Edit Criteria:**
  - Included in the payment for a Preventive Care visit. (See Wellness Examination codes above.)

## Prevention of Dental Caries in Preschool Children (Counseling)
**USPSTF Rating (April 2004): B**
The USPSTF recommends that primary care clinicians prescribe oral fluoride supplementation at currently recommended doses to prevent an increase in gastrointestinal hemorrhage.

- **Claims Edit Criteria:**
  - Included in primary care or OB/GYN office visits.

### Note:
ICD-10 codes are effective 10/1/14.

| 06/01/11   | **Updated links to Medical Policies** (deleted links to retired policies and replaced with new policies, etc...)  
**Indications for Coverage Section:**  
- Summary of Preventive Care Services Benefit under the All Members paragraph, deleted "or substance"  
- Osteoporosis Screening: deleted references to "age 60 or older"  
- Several minor wording updates.  
**Definitions Section:** Added definition of Modifier 33.  
**Coding Section:**  
- Added Modifier 33 statement.  
- Osteoporosis Screening:  
  o Updated USPSTF ‘B’ rating description to align with January 2011 USPSTF Recommendation Statement.  
  o Deleted the “C” rating that was part of the previous USPSTF Recommendation Statement.  
- Screening for Visual Impairment in Children:  
  o Updated USPSTF ‘B’ rating description to align with January 2011 USPSTF Recommendation Statement.  
- **Code Descriptions Updated:**  
  o 82952 and G0437 (Updated descriptions are effective 1/1/11.)  
- **Codes Added:**  
  o Abdominal Aortic Screening: 76700, 76705  
  o Cervical Cancer Screening: P3000, P3001  
  o Hepatitis B Screening: 87340, 87341  
  o HIV Screening: ICD9 diagnosis code V73.89  
  o Wellness Examinations: 99461, S0610, S0612, S0613  
  o Behavior Counseling/Healthy Diet: S9470  
- **Codes Deleted:**  
  o Immunizations: 90470 (Code was retro terminated back to 12/31/10.)  
  o Hepatitis B Screening: 87515, 87516, 87517  
  o HIV Screening: 87534, 87535, 87536, 87537, 87538, 87539 |
| 8/16/11    | **Coding Changes:**  
- Bright Futures Services Section:  
  1. **'Anemia Screening in Children'** is a new section. In this section included CPT codes 85014, 85018, and diagnosis code V78.0  
  2. **TB Testing** section:  
    o **Added** codes 99211 and diagnosis code 795.5  
    o Deleted Instructions: " Payable as preventive with at least one of the listed dx codes." And replaced that with, "CPT code 86580 is payable as preventive with at least one of the listed dx codes. CPT code 99211 is only payable as preventive with either dx code 795.5 or V74.1" |
| 10/01/11   | **Coding Changes:**  
- Pregnancy ICD9 Codes Section:  
  - Added V23.42 and V23.87. (These are new codes as of 10/1/11.)  
- TB Testing:  
  - Deleted ICD9 Code 795.5. (Incomplete code as of 10/1/11.)  
  - Added ICD9 Codes 795.51 and 795.52 (new codes as of 10/1/11)  
- Immunizations:  
  - Added 90654 (benefits for 90654 are effective 10/1/11). |
| 11/13/11   | **Coding Section - Updated the codes and the Claims Edit Criteria column for each of the following:**  
- Anemia, Iron Deficiency Anemia Screening: |

| 4/23/13   | **Coding Section:**  
            *The following is effective April 1, 2013, date of service point in time (not at renewal):*  
            - **Cervical Cancer Screening, Pap Smear,**  
              - Claims Edit Criteria column revised:  
                - Removed the age limitations (deleted statements regarding age limits of 21 to 65 years)  
                - Added statement “Females, no age limits.”  
            **Updated Instructions for Use Paragraph (pg. 1):** MCG™ Care Guidelines                                                                                     |
| 6/1/13    | Annual Review.                                                                                                                                                                                                       |
|           | **Coding Section:**  
            *The following changes are effective June 1, 2013, date of service point in time (not at renewal):*  
            **Preventive Care Services Table:**  
            - Reworded the table header statement regarding other policies (for clarity)  
            - Deleted several duplicate Reimbursement Policy disclaimers.  
            - Reworded several items in the Claims Edit Criteria column (for clarity)  
            - **Added ICD-10 Diagnosis Codes.** Added note that ICD-10 codes are effective 10/1/14.  
            - **Immunizations:** Added notation at end of the “regardless of diagnosis code” bullet that it is for covered preventive immunizations.  
            - **Prostate Cancer Screening:** Code Group 2, **deleted diagnosis code V84.03** (due to Inappropriate Diagnosis Code Reimbursement Policy effective 6/1/13.)  
            - **Screening for Intimate Partner Violence:** new section (no coding, no impact)  
            - Moved diagnosis codes for Atherosclerosis and for Diabetes into separate tables.  
            **Expanded Women’s Preventive Health Table:**  
            - Reworded the table header statement regarding other policies (for clarity).  
            - **Added ICD-10 Diagnosis Codes.** Added note that ICD-10 codes are effective 10/1/14.  
            - **Contraceptive Methods,** Code Group 3 (anesthesia), added code 00851  
| 7/1/13    | **Coding Section:**  
            *The following changes are effective July 1, 2013, date of service point in time (not at renewal):*  
            **Preventive Care Services Table:**  
            - **Immunizations:** Influenza Virus, added code Q2033 (new code effective 7/1/13).  
            **Expanded Women’s Preventive Health Table:**  
            - **Contraceptive Methods,** Code Group 1, Contraceptive Methods, IUDs, added code Q0090 (new code effective 7/1/13)  
| 8/1/13    | **Coding Section:**  
            *The following change is effective August 1, 2013, date of service point in time (not at renewal):*  
            **Preventive Care Services Table:**  
            - Immunizations: Influenza Virus, added code 90686  
            **Appendix A and References sections:**  
            Updated the links to USPSTF Grade Recommendations information pages.

| 10/1/13 | **Indications for Coverage, Summary of Preventive Care Services Benefit:**  
Women’s Health sub-section:  
• #1. Added, “BRCA lab screening (effective October 1, 2013)”  
**Coding Section:**  
The following are covered as Preventive, effective October 1, 2013, date of service point in time (not at renewal):  
**Preventive Care Services Table:**  
• Genetic Counseling and Evaluation for BRCA Testing; and BRCA Lab Screening. Added USPSTF “B” draft rating (dated April 2013) and coding for BRCA lab screening.  
  o Preventive BRCA lab benefit:  
    ▪ Procedure Codes: 81211, 81212, 81213, 81214, 81215, 81216, 81217, 36415, 36416  
    ▪ Diagnosis Codes: Family History of Breast or ovarian cancer: ICD-9: V16.3, V16.41; ICD-10: Z80.3, Z80.41  
  o Codes that will Not have the Preventive benefit applied: Added a diagnosis code table for BRCA lab codes that will not allow preventive benefit (See Cancer Diagnosis Code List table for itemized list of codes):  
    ▪ Current breast or ovarian cancer (including uterine adnexa).  
    ▪ Personal history of breast or ovarian cancer (including uterine adnexa)  
• Immunizations: Added flu vaccine code 90685. Added Meningococcal vaccine code 90644.  
**Expanded Women’s Preventive Health Table:**  
• Contraceptive Methods: Fixed typo on Code Group 3 ICD-10 Diagnosis Code for sterilization (corrected to be Z30.2, previously listed as Z73.02 in error.)  

1/1/14 | **The following changes are effective as of January 1, 2014, date of service point in time (not at renewal):**  
**Related Policies, pg. 1:**  
• Removed link to Breast Pump policy (retired)  
**Pg. 2, added EHB paragraph.**  
**Indications for Coverage Section:**  
• Summary of Preventive Care Services:  
  o Women’s Health:  
    1. Paragraph #1: For clarification added statement. “Prior authorization requirements apply to BRCA lab screening.”  
    2. Paragraph #2: Removed the word "rental" from breastfeeding equipment.  
• For clarification of breast pump purchase benefit, added section Covered Breastfeeding Equipment, including:  
  o Personal-use electric breast pump purchase (one pump per birth)  
  o Replacement breast pump supplies necessary to operate covered pump.  
**Coverage Limitations and Exclusions Section:**  
• For clarification added #6, Breastfeeding equipment and supplies not covered including: Manual breast pumps; Hospital-grade pumps; and Equipment and supplies not listed in the Covered Breastfeeding Equipment section. Included a list of items not covered.  
• Travel Immunizations – Additional Information paragraph clarified.

### Appendix A – USPSTF Grade Definitions

Grade Definitions for USPSTF Recommendations Dated Prior to May 2007:
http://www.uspreventiveservicestaskforce.org/uspstf/gradespre.htm

**A—Strongly Recommended:** The USPSTF strongly recommends that clinicians provide [the service] to eligible patients. The USPSTF found good evidence that [the service] improves important health outcomes and concludes that benefits substantially outweigh harms.

**B—Recommended:** The USPSTF recommends that clinicians provide [the service] to eligible patients. The USPSTF found at least fair evidence that [the service] improves important health outcomes and concludes that benefits outweigh harms.

**C—No Recommendation:** The USPSTF makes no recommendation for or against routine provision of [the service]. The USPSTF found at least fair evidence that [the service] can improve health outcomes but concludes that the balance of benefits and harms is too close to justify a general recommendation.

**D—Not Recommended:** The USPSTF recommends against routinely providing [the service] to asymptomatic patients. The USPSTF found at least fair evidence that [the service] is ineffective or that harms outweigh benefits.

**I—Insufficient Evidence to Make a Recommendation:** The USPSTF concludes that the evidence is insufficient to recommend for or against routinely providing [the service]. Evidence that the [service] is effective is lacking, of poor quality, or conflicting and the balance of benefits and harms cannot be determined.

Grade Definitions for USPSTF Recommendations Dated After May 2007:
http://www.uspreventiveservicestaskforce.org/uspstf/gradespost.htm

The U.S. Preventive Services Task Force (USPSTF) has updated its definitions of the grades it assigns to recommendations and now includes “suggestions for practice” associated with each grade. The USPSTF has also defined levels of certainty regarding net benefit. These definitions apply to USPSTF recommendations voted on after May 2007.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Definition</th>
<th>Suggestions for Practice</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>The USPSTF recommends the service. There is high certainty that the net benefit is substantial.</td>
<td>Offer or provide this service.</td>
</tr>
<tr>
<td>B</td>
<td>The USPSTF recommends the service. There is high certainty that the net benefit is moderate or there is moderate certainty that the net benefit is moderate to substantial.</td>
<td>Offer or provide this service.</td>
</tr>
<tr>
<td>C</td>
<td>The USPSTF recommends against routinely providing the service. There may be considerations that support providing the service in an individual patient. There is at least moderate certainty that the net benefit is small.</td>
<td>Offer or provide this service only if other considerations support the offering or providing the service in an individual patient.</td>
</tr>
<tr>
<td>D</td>
<td>The USPSTF recommends against the service. There is moderate or high certainty that the service has no net benefit or that the harms outweigh the benefits.</td>
<td>Discourage the use of this service.</td>
</tr>
<tr>
<td>I Statement</td>
<td>The USPSTF concludes that the current evidence is insufficient to assess the balance of benefits and harms of the service. Evidence is lacking, of poor quality, or conflicting, and the balance of benefits and harms cannot be determined.</td>
<td>Read the clinical considerations section of USPSTF Recommendation Statement. If the service is offered, patients should understand the uncertainty about the balance of benefits and harms.</td>
</tr>
